 Consultor online...

# NobleProg Our Service

**Professional skills training and industry recognised accredited courses. We focus on capability, developing real life practical skills that can be utilised in the workplace.**

**Digital / Data | Artificial Intelligence | Cyber Security**

# **NobleProg Bespoke**

**NobleProg has a substantial catalogue of ‘off the shelf’ courses but we are a leading training provider for bespoke / customised learning.**

**Connecting our clients with our experts early in the engagement process creates learning events which exactly meet our clients’ needs.**

**Topics & Content / Duration / Theory to Practical Ratio can all be tailored and the inclusion of Data and Labs which are recognisable to the delegates means impactful learning.**

The World's Local Training Provider

# NobleProg Delivery Method

**We deliver our courses both face-to-face and remotely.**

**Online, live, instructor led delivery is a notable strength of NobleProg as learners receive access to their own virtual machine 'DaDesktop', which contains everything they need for their course, and which allows interactive, hands-on guidance from the trainer**

## ***DaDesktop***

**Learners are given their own virtual machine, accessible from their web browser. It will have everything they need for their course and the trainer is able to actively monitor and guide learners creating a highly interactive, coaching-oriented style of teaching and learning never before possible outside of a physical classroom.**

**DaDesktop means the personal computing power of the individual will not restrict a learners' ability to engage in the course. It doesn't matter if the individual is on a low powered (RAM / CPU / memory) computer. The virtual machines are securely accessed, and all data is stored in a UK Tier 3 Data Centre.**

# NobleProg Our Experts

**NobleProg trainers combine a mastery of theory with the experience of real-world application.**

**Many remain practitioners in their field.**

**Courses are delivered in a dynamic and engaging way, with a focus on enhancing capability.**

## What makes us different

**All training delivered by real world experts:** current practitioners in their field combined with vast academic knowledge and the latest teaching techniques. Focus on practical, hands-on learning

**Bespoke learning events:** opportunity to talk to the trainer before your course to discuss exactly what you are looking for. Customised content, using data and exercises recognisable to you. Comprehensive pre-course questionnaires allow us to understand every individual goal and current level of knowledge

**Courses arranged around your schedule:** no waiting lists and no chance of cancellation due to low numbers

# NobleProg Certifications

NobleProg is selectively partnered with a number of leading global certification and accreditation bodies. We design and deliver a number of programmes which include exams, alongside the professional skills development, so that delegates finish their training with updated skills and an internationally recognised certification.

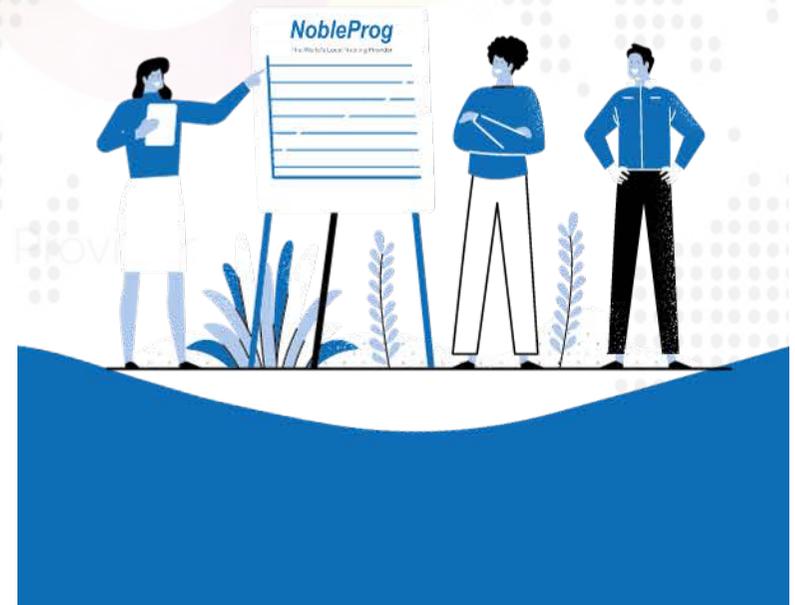

# NobleProg Methodology / Approach to Pedagogy

Our Programmes are *'hands on'* from the outset.

We know that it is vital to *'learn through doing'*, regardless of the starting point of the delegates.

The World's Local Training Provider

# NobleProg Methodology / Approach to Pedagogy

We use a blended approach:

- **THEORY combined with PRACTICAL APPLICATION:** an emphasis on learning and practising the real-world skills that the role demands.

Learner Journey:

- **The NobleProg learner journey begins with the completion of a Pre-course questionnaire.**
- **All delegates will be asked to complete this form to ascertain their prior level of knowledge and skills, and to establish the key areas of training they are wishing to focus on, and what they hope to gain from completion of the training.**
- **This enables our trainers to tailor each course to an appropriate level for the group, and to also make any adjustments required to ensure that the course is fully inclusive.**

# NobleProg Feedback – post event

## Training Impact Evaluation

It has been approximately 6 weeks since you completed your training with NobleProg.

Thank you for any feedback you provided immediately after the course. The purpose of this brief form is to understand to what extent you feel that your knowledge or skills have improved by taking the course. Your feedback helps us maintain the high quality of our training.

Could you please answer these 5 questions, adding comments as you wish.

Thank you

After completing the course and returning to my role, I was able to retain and recall the knowledge I gained.

1 2 3 4 5

Strongly Disagree      Strongly Agree

The knowledge and skills I gained were immediately transferable to my day-to-day role.

1 2 3 4 5

Strongly Disagree      Strongly Agree

The knowledge and skills I gained on the course have improved my capability to perform my role.

1 2 3 4 5

Strongly Disagree      Strongly Agree

Having had the opportunity to apply the knowledge and skills developed during the training, do you have any suggestions that could make this course better?

Long-answer text

Would you recommend NobleProg to your network for future training?

- Yes
- No

I would like to enhance my skills in the following areas (please set out any areas you have identified for future skills development):
